

# My Account: Holds

Under the Holds Tab you can:

- Check to see what items you have on hold
- See if items are available for you to pick up
- “cancel hold(s), Edit pickup location, suspend hold(s) and cancel hold suspension(s)” by clicking in the box next to the desired item then click on desired action
- Suspend hold(s) allows you to suspend you holds while you are away or unable to pick up hold(s) for a period of time. Suspend holds keeps your place on the list but allows the next person to get the item
- Once the suspension has ended you will get the item when it is returned.
