

CONNECTING TO WI FI

CLASSIC KINDLES:

1. Redirection does not work on the older kindles. Manually type in the following address in the Kindle “Experimental Browser” will allow connecting to public Wi-Fi.

- BHC-** <http://192.168.210.254/capture/handler.py/index?appid=9>
- LHC-** <http://192.168.206.254/capture/handler.py/index?appid=20>
- KNG-** <http://192.168.202.254/capture/handler.py/index?appid=11>
- GS-** <http://192.168.213.254/capture/handler.py/index?appid=10>
- GV-** <http://192.168.214.254/capture/handler.py/index?appid=10>
- SMV-** <http://192.168.215.254/capture/handler.py/index?appid=15>
- CHL-** <http://192.168.216.254/capture/handler.py/index?appid=9>
- MDV-** <http://192.168.217.254/capture/handler.py/index?appid=11>
- VAV-** <http://192.168.218.254/capture/handler.py/index?appid=9>
- DS-** <http://192.168.219.254/capture/handler.py/index?appid=9>

2. Will redirect to another page, click on “I AGREE”, click on CONTINUE, will redirect to another page, click on “CONTINUE TO INTERNET” redirect to Library Home Page, and you are now connected to internet.
