

Printing from Yahoo Mail

To properly print e-mails you must have the desired e-mail open

1. Once the desired e-mail is open, Click on “more”

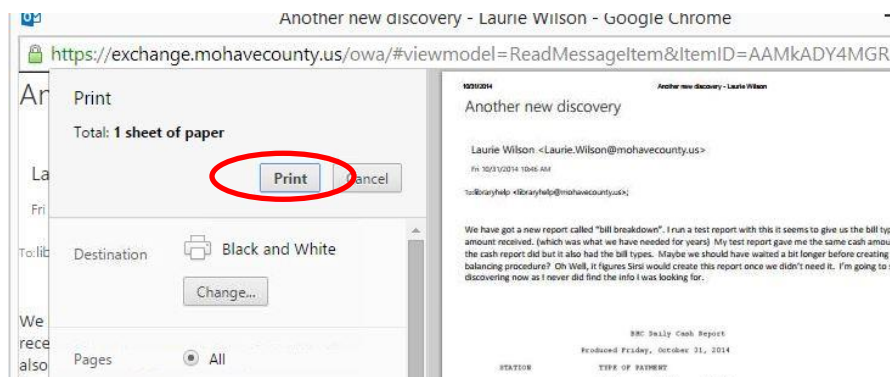

2. Select Print from the Drop-Down Menu
3. “Printer Friendly” view of e-mail will open (if you get an error message-check pop-up blocker) Click “Print”

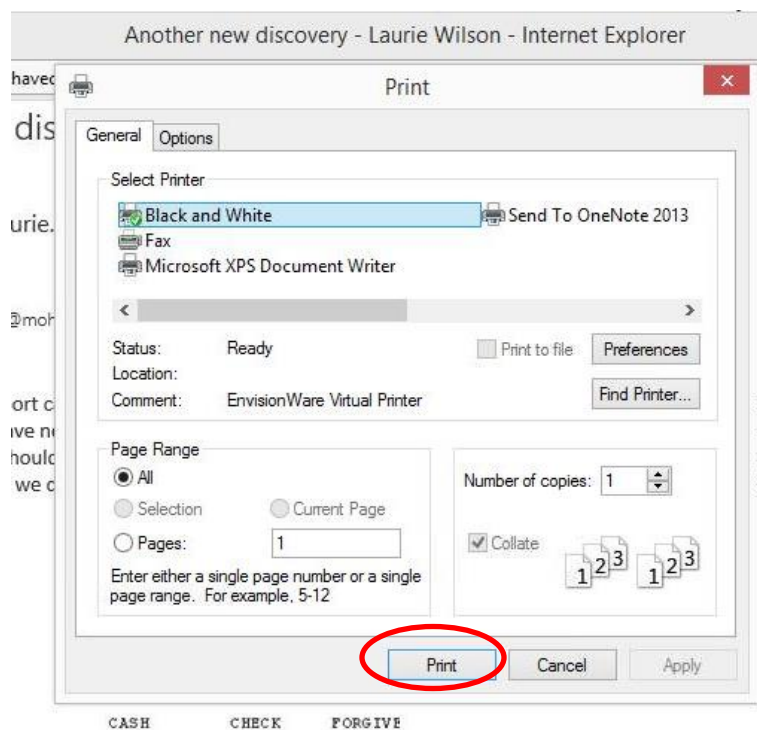

4. Print dialogue box will appear

Google Chrome

Internet Explorer

5. Select the correct printer from list then click **“Print”**

6. **NOTE:** If using a public computer, please refer to “Library Printing” for further assistance
